

WHO WE ARE

We are a world class power transmission company who builds, operates and maintains the backbone of power supply system in Assam. We help APDCL in providing 24x7, reliable, affordable & quality power for everyone in the State. We work round the clock and keep our transmission lines, substations and other infrastructure in healthy & good working condition with minimum possible down time.

We undertake timely periodic and preventive measures so that our infrastructure operates at optimum efficiency. We are a learning organization striving for excellence in everything we do. We continuously upgrade our systems by adopting the latest technology. We observe utmost economy in all aspects of our work so that the ultimate cost to the end user is low.

We provide a caring service by anticipating the requirements of the customers and innovatively satisfying them beyond their expectation. We are committed to do our business ethically and transparently. We periodically assess the internal and external risks to our business and implement proactive risk mitigation measures. We strive to adhere to the highest standards in taking care of our employee's health, safety and security. We are always conscious of our role in keeping all our processes environment freindly. We ensure to provide power at competitive cost by continuously working to reduce the transmission losses. We are honest with consumers and with each other. We are leaders in our area of responsibility with a deep commitment to deliver results. We always accept personal responsibility and accountability.

This is who we are and this is what we will continue to be.
